**Compare, you'll find no finer mattress  
at any price than Stearns & Foster!  
It costs so little for you to sleep better.**

If you're waking up tired, it's time for a change of bedding. And why do we recommend S & F bedding year after year? Simply this: we have checked value for value, feature against feature, and still find S & F the best bedding around. And that's why ours is the largest selection in Livingston County. Without expensive showrooms or costly national advertising S & F has been able to hold production costs to a minimum, even with prices of materials rising; and with no sacrifice in excellence! Stearns & Foster still insists on

40 lbs. of 100% cotton felt upholstery, rolled under pressure to give maximum cushioning with minimum matting. It's all inner-quilted and won't shift. S & F uses double-offset coils that refuse to twist or turn. Box springs are hand-tied 8 ways with fine imported hemp to eliminate sway and noise, increase flexibility. More extras: the exclusive Humgard process protects against moisture and odor; locked-edge construction prevents filling-material from working into the inner-spring unit. Many mattresses offer some of these features...only Stearns & Foster offers them all!
